Is there a way for you to send a screenshot of exactly where you'd like for me to move this? Or we can hop on a quick zoom.

And you can sign it now but I won't process the order until we get this camera adjusted to where it needs to be.

Will,

Camera 003 was one of our original location sights. That has since changed. We want camera 003 to be on the east end of town. This will maximize that we catch as much traffic as possible coming and going through town. Does this need to be changed on the deployment plan before I sign?
