

PETITION

At the cost of \$9,000 per year, the Town of Rangely contracted with the private data gathering company, Flock Group, Inc. dba Flock Safety to install three surveillance cameras at the east and west ends of town and the intersection of highways 64 and 139. These cameras automatically take a photo of your automobile and store the images in a "cloud" database that is accessible not only to law enforcement but also privately owned companies in the United States and in some instances, overseas. The images uploaded and stored by Flock Safety include your license plates, facial features, car make, bumper stickers, and travel information each time you travel in and out of Rangely.

We the undersigned residents want the Town of Rangely to discontinue the use of the Flock Safety surveillance system and have the cameras removed.
